Instructions for IML printing on HUP0,60 / 0,5 L glass

Printable glass surface: 229.5 x 151.8 mm

Bleed size 233.5 x 155.8 mm

Minimum line thickness 0.1 mm.

Full-color CMYK graphics are accepted. | If direct colors are used, please provide them according to the PANTONE color scale. Include these colors in the order.

For glasses produced with IML printing, the minimum order quantity is 1,000 pieces. | If the graphic includes a ruler, leave that strip (12 mm wide) transparent.

According to EU regulations, glasses marked with CE can contain a maximum of 3 ruler marks.

Acceptable file formats: For vector graphics: pdf, ai, eps, svg. Please ensure that texts are outlined or attach the font to the graphic file. For image files: jpeg, tif, png.

Minimum resolution 300 DPI, preferably without jpeg compression. Creating a high-resolution, photorealistic visual design suitable for marketing materials starts at 5000 HUF.

Note! We cannot take responsibility for content and grammatical errors after the approval and acceptance of the print and visual design.
